## **Public Works News Release**

### **Mac Iver Street Construction Update 7**

Sierra Nevada Construction, the contractor working on the City of Bishop Mac Iver Street Improvements project, plans to pave the street extension and patch the existing street starting Tuesday, 4 December, weather permitting. If all goes as planned, the extension will be paved, the existing street patched, and the street opened to traffic Friday, 7 December.

The work remaining on the Mac Iver Street project after the extension is paved and the existing street is patched will be completed in the spring of 2008. The work to be completed includes construction of curb, gutter, and sidewalk on the existing street, construction of sidewalk on the south side of the extension, and repaving the existing street.

Pavement patching operations on the existing street and paving operations on the street extension could affect drivers and pedestrians on Mac Iver Street, Spruce Street, and even on North Main Street. Drivers and pedestrians in the area should be alert for hidden hazards and should be patient with short delays.

For more information contact City of Bishop Public Works at publicworks@ca-bishop.us or 760-873-8458. Press releases posted at <http://www.ca-bishop.us/Advertisements/Releases/Releases.htm>
