## **Public Works News Release**

### **More Street Trees Available**

Almost 40 of the 80 trees made available by the City of Bishop Grove Street Sidewalks project are still available to properties along the street. Requests for these trees should be submitted to Bishop Public Works as soon as possible.

The Grove Street Sidewalks project provided 80 trees - about 2 trees for every property along Grove Street between Home Street and Main Street. Property owners received coupons for the trees and had until last Friday, 4 September, to redeem the coupons and pick up the trees. As of Tuesday, 8 September, almost 40 trees had not been picked up. The coupons are now expired and the trees are available upon request to properties along Grove Street that want additional trees. The trees are also available to properties along South Second Street because of the construction recently completed there.

Owners and residents along Grove Street and South Second Street that would like trees left over from the Grove Street Sidewalks project should submit written requests to the City of Bishop Department of Public Works at 377 West Line Street or [publicworks@ca-bishop.us](mailto:publicworks@ca-bishop.us) as soon as possible. If any trees are left over after this process, the trees will be made available to residents and property owners throughout the city.

For more information contact City of Bishop Public Works. Press releases posted at <http://www.ca-bishop.us/Advertisements/Releases/Releases.htm>.
