Public Works News Release

Auditorium Sidewalk Work to Start

The contractor on the City of Bishop Auditorium Sidewalk project is expected to start work Monday, 16 April. The construction of the project will involve lane, street, and sidewalk closures on North Fowler Street near Line Street and is expected to last about 2 weeks. The contractor on the \$45,000 project is V and C Construction of Minden, Nevada.

The Auditorium Sidewalk project will address deteriorated curb and sidewalk on the east side of Fowler Street next to the City Auditorium. The Auditorium is at the corner of Line and Fowler streets. The improvements include curb, gutter, sidewalk, a curb ramp, tree removal, tree replacement, a bench and wall, and will use colored concrete.

Project construction will involve lane, sidewalk, and street closures, weekday parking restrictions, construction equipment, and workers in the street. Either both lanes or just the northbound lane of Fowler will be closed when construction is underway. All efforts will be made to minimize the impacts and restrictions, but residents, students, drivers, and pedestrians should be cautious, take alternate routes when available, be alert for hidden hazards, and be patient with some inconvenience and with delays.
