Public Works News Release

Home Street Construction Update 10

With the placement of signs and the painting of pavement stripes and markings on Home Street this week, construction of the City of Bishop Home Street Improvements will be complete.

The project is a success through the involvement, cooperation, and support of the Bishop City Council, Sierra Nevada Construction, the Inyo Local Transportation Commission, Caltrans District 9, Bishop schools, and the Bishop community at large. All should take pride in the finished product. The final cost of building the project that started in mid July, including, curb, gutter, sidewalk, drainage, pavement, and tree replacement, will be a little over \$1.7 million.

Tree coupons provided to properties on Home Street and redeemable at the Bishop Nursery expired at the end of September. Coupons for about 80 trees were distributed to properties on Home Street and, of the over 80 trees available, 30 were unclaimed at the time the coupons expired. Since then, all written requests from properties on Home Street for additional trees have been granted but still over 20 trees remain.

The remaining trees are now available to all residents of the City of Bishop. Requests for trees should be made in writing to Bishop Public Works at the address above or to the email address below. Trees should be planted within the City and in public view.

For more information contact City of Bishop Public Works at 760-873-8458 or publicworks@ca-bishop.us.
