November 1, 2007

Dear Parents,

The City of Bishop, in collaboration with our schools and local law enforcement has recently completed many improvements to our city streets and sidewalks. Some of these projects include the creation of new sidewalks along Home Street and Pine Street. These sidewalks have provided safe pathways for our students to follow on their way to and from our schools. We greatly appreciate the commitment to student safety on the part of the City of Bishop and we know that they have many more projects planned in the future to further improve our community.

To partner in this effort we would like to draw your attention to the map printed on the backside of this communication. We have highlighted the safest routes to our schools and we would like to ask for your help in encouraging your children to utilize these safe routes. Please take some time to review these routes to school with your child and advise them to follow these pathways. Traffic around our school campuses can be extremely busy before and after school. Using these safe routes will increase the safety of our students walking or biking to school. We appreciate your help in this effort.

I would also like to remind all of our parents to please check in at the school offices prior to visiting our playground or classrooms. While this may be an inconvenience, please understand that this procedure is in the best interests of your children, we thank you for your cooperation in this matter.

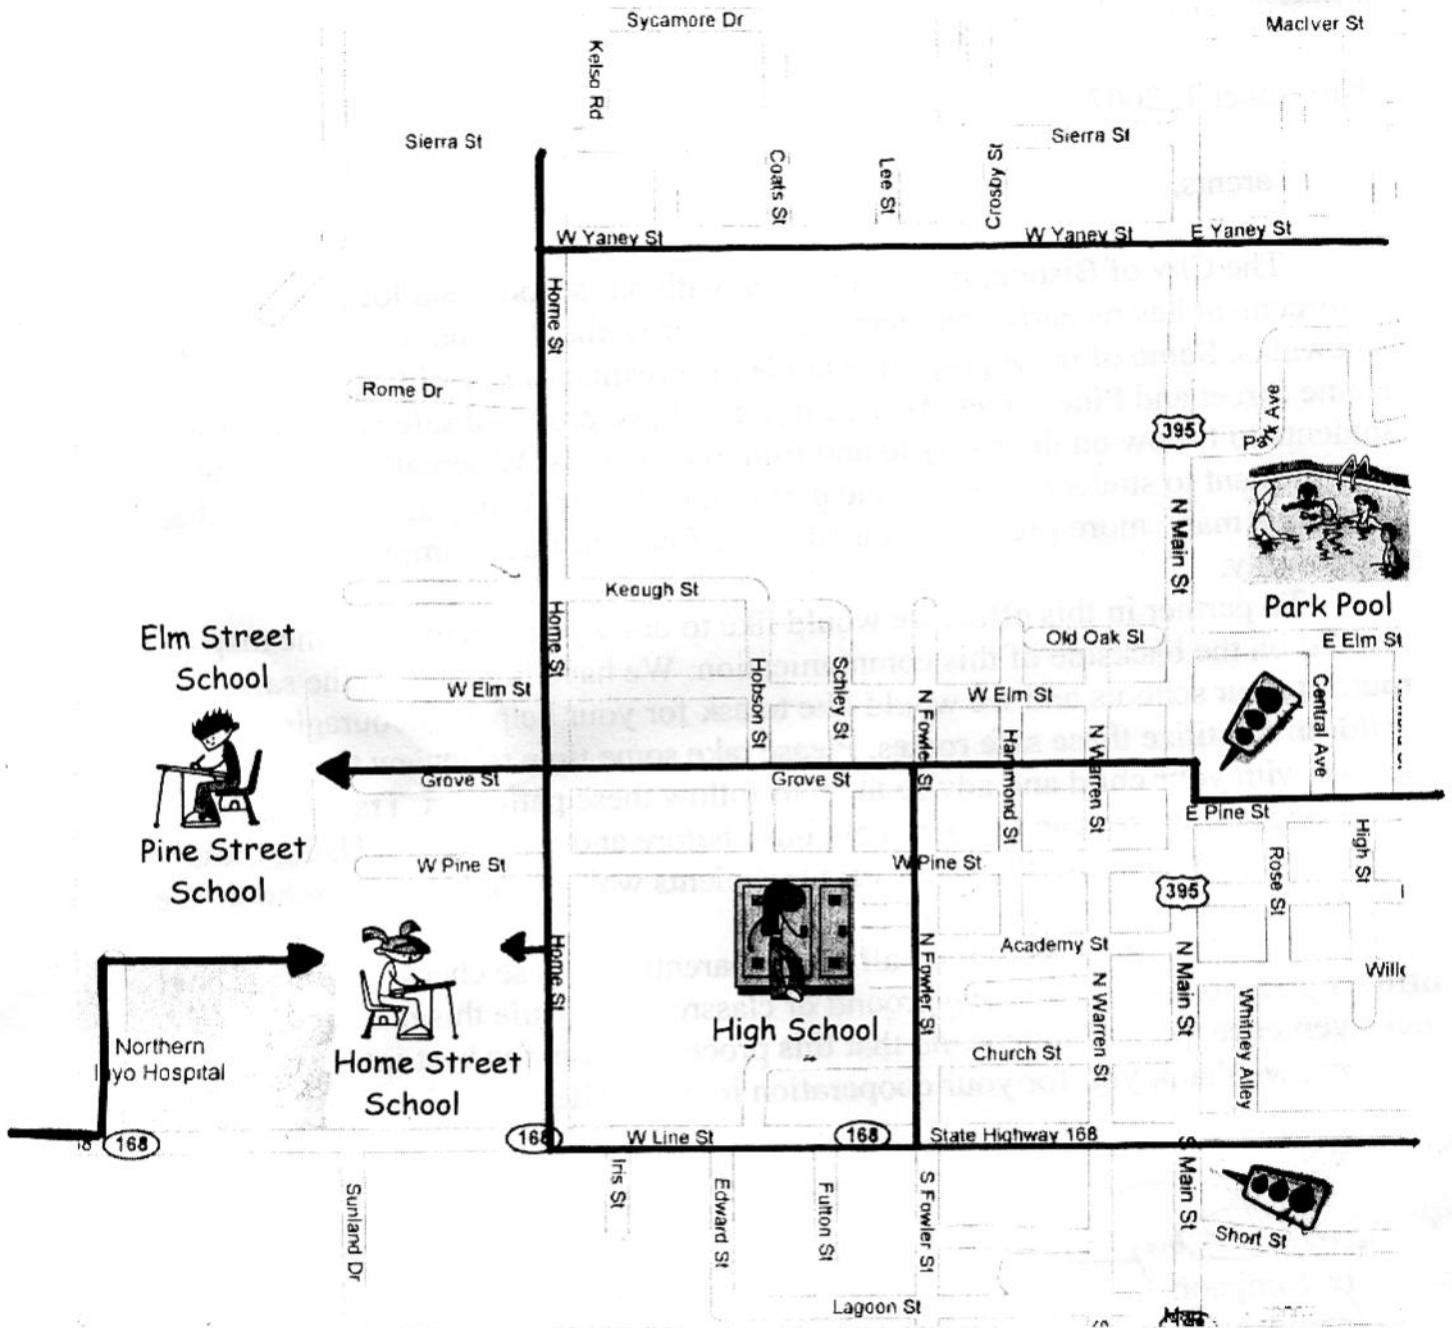

Sincerely,

Barry D. Simpson
Superintendent
