## **Public Works News Release**

### **East Line Street Closed at Main on Wednesday**

The City of Bishop Public Works crew plans to close East Line Street at Main Street all day on Wednesday, 15 June. The closure will affect East Line Street between Main and Sneden and traffic in this area should plan to take different route.

The street closure is necessary so that a fire hydrant at the intersection of East Line and Main streets can be relocated. The fire hydrant needs to be relocated to allow for the replacement of a utility pole at the southeast corner of the intersection that is prone to damage from vehicles running in to it. Fire hydrant relocation will require trenching across East Line Street at Main Street.

East Line Street will be closed to both directions of traffic starting at 5:30 am Wednesday, 15 June, and continuing until work is complete, possibly late in the day. Although businesses in the area will all be open and accessible, pedestrians should be prepared to take other routes as well, if possible. Patience with the inconvenience this work causes is greatly appreciated.
