The Bishop Police Department is looking for men and women who have that “special something” required to successfully complete a structured and rigorous training program in a ‘911’ center that transitions into a regular position as Public Safety Dispatcher. The most successful applicants will already be highly skilled in the use of computers, multi-tasking, customer service, navigating shift-work, and able to function under the stress of an emergency call for service.

We are currently accepting applications for the position of Full Time Communications Operator. Bishop is a unique and incredible place to live and work. To apply please visit our website [www.cityofbishop.com/administration/jobs](http://www.cityofbishop.com/administration/jobs).
