Water Conservation Incentive Program

*Rebates On Water Saving Devices
& Irrigation Improvements*

SAVE WATER, ENERGY, AND MONEY

As a City of Bishop customer, you may be eligible for substantial rebates when you replace your old inefficient devices and appliances with water-saving devices and Energy Star appliances in your home or business. You may also be eligible for free water-saving irrigation devices. The links below offer details on products, deadlines, and how to apply.

[High Efficiency Clothes Washer](#) / [Dish Washer](#) / [Toilets](#) / [Irrigation Improvements](#)

High-Efficiency Clothes Washer
Up to \$100 Rebate

The average American family washes about 300 loads of laundry each year. ENERGY STAR can help families cut their related energy and water costs. ENERGY STAR certified clothes washers use about 25% less energy and 40% less water than regular washers

High Efficiency Toilet
(Including Dual-Flush)
Up to \$100 Rebate

High-Efficiency Toilets (HETs) are defined as fixtures that flush at 20 percent below the 1.6-gallons-per-flush (gpf) U.S. maximum or less, equating to a maximum of 1.28-gpf. (The HET category includes dual-flush toilets). The average water savings for HETs is estimated to be 38 gallons per day (gpd) when replacing a non-ULFT and 7 gpd when replacing a ULFT.

[List of Models](#) [Rebate Application](#)

High Efficiency Dishwasher
Up to \$100 Rebate

A dishwasher built before 1994 wastes more than 10 gallons of water per cycle. A new, ENERGY STAR certified dishwasher will save, on average, 1,600 gallons of water over its lifetime.

Free Items

Irrigation and Car Washing Improvements
Free (limit one per customer)

Automatic shut off nozzles, hose timers, automatic sprinkler timers, and sprinkler systems can save a lot of water outside. A running hose discharges up to 10 gallons per minute. Use a hose nozzle or turn off the water while you wash your car and you'll save up to 100 gallons every time. Use a garden hose timer when watering by a hose sprinkler. Upgrade to a smart irrigation controller and save 100's of gallons per day and this is probably the most effective single measure a Bishop water customer can take to conserve water.
