Public Works News Release

Mac Iver Street Construction Update 9

The extension of Mac Iver Street has been open to traffic for over a month. The contractor has all but suspended work on the project for the winter. Sidewalk and ramps have been missing from the extension during that time but they should be finally replaced this week. The new sidewalk and ramps that had been placed on the extension just before it was paved had to be removed because of a number of problems including frozen concrete and poor finish.

Once the sidewalk and ramps are replaced, work will again be suspended until spring. In the spring the existing street will be repaved and, if all goes as planned, work on the contract to construct and replace curb, gutter, sidewalk, and ramps on the existing street will start. This construction and paving should take just a few weeks once started.

For more information contact City of Bishop Public Works at publicworks@ca-bishop.us or 760-873-8458. Press releases posted at <http://www.ca-bishop.us/Advertisements/Releases/Releases.htm>
