## Public Works News Release

### Mac Iver Street Sidewalk Progress

#### Construction Update 11

Most of the new sidewalk being constructed on Mac Iver Street by Truhls Concrete is complete. The remaining curb, gutter, sidewalk, driveways, and ramps will be constructed over the next few weeks. Following this work the existing street will be repaved. The entire Mac Iver Street Improvements project should be completed in the latter part of May.

With one or two exceptions, new concrete curb, gutter, sidewalk, driveways, and ramps are in place on Mac Iver Street from Spruce Street to about the parking lot of Pizza Factory. Over the next few weeks Truhls will construct remaining concrete improvements all the way to Main Street.

The continuing construction on Mac Iver Street will require intermittent lane, driveway, and sidewalk closures. In addition, the work will intermittently restrict access to residences and businesses in the area. All efforts will be made to minimize the impacts and restrictions, but drivers and pedestrians should be cautious, take alternate routes when available, be alert for hidden hazards, and be patient with some inconvenience and with short delays.
