Public Works News Release

South Second Start Date Moved Up

Construction of the South Second Street Improvements project is expected to start a few days earlier than previously thought. V and C Construction says they will start removing trees along the street on Thursday, March 5th. The remainder of the project schedule is not expected to change.

The \$700,000 project will remove trees, replace some water and sewer lines, construct new curb, gutter, and sidewalk, reconstruct the pavement, and provide replacement trees on South Second Street. The improvements will be made on the full length of South Second Street between South Street and Line Street and will include portions of Clarke Street and Short Street near Second Street. The contractor plans to complete the project about the beginning of May.

Parking will be restricted during the day Monday through Friday while work is underway. Equipment, workers, and trenches in the street will require attention and could impact traffic. All efforts will be made to minimize the impacts and restrictions. Residents, drivers, and pedestrians should be cautious in and near the construction site. They should take alternate routes when available, should be alert for hidden hazards, and should be patient with short delays.
