## Public Works News Release

### South Second Street Construction Update 5

The delivery of trees on the City of Bishop South Second Street Improvements project is delayed until tomorrow, Thursday, 7 May. Properties along the street received letters last week saying the trees would be delivered today, 6 May. We learned from the contractor on the project this afternoon the delivery of the trees is delayed a day. The city sincerely apologizes for any inconvenience this delay has caused.

In addition to the delay in the delivery of the trees, the date for repaving the street has been pushed back from Thursday of this week to Tuesday of next week, 12 May. The completion of the project is expected about a week after that.

The \$700,000 South Second Street Improvement project removed trees, replaced some water and sewer lines, constructs new curb, gutter, and sidewalk, will reconstruct the pavement, and provide replacement trees on South Second Street between South Street and Line Street. The project also includes portions of Clarke Street and Short Street near Second Street. The project is expected to be complete about the latter part of May, about 3 weeks later than expected when work on the project began.

Parking will continue to be restricted during the day Monday through Friday while work is underway. Equipment, workers, excavations, bumps, and dips in the street will require attention and will impact traffic. All efforts will be made to minimize the impacts and restrictions.

Residents, drivers, and pedestrians should be cautious in and near the construction site. They should take alternate routes when available, should be alert for hidden hazards, and should be patient with short delays.

For more information contact City of Bishop Public Works. Press releases posted at <http://www.ca-bishop.us/Advertisements/Releases/Releases.htm>.
