## **Public Works News Release**

### **Grove Street Construction Update 4**

Construction is about half way complete on the City of Bishop Grove Street Sidewalks project. The \$1 million project will construct new curb, gutter, sidewalk, and water line, improve drainage and water quality, improve the pavement, make sewer repairs, and provide about 80 new trees on Grove Street. The project also requires the relocation of utility poles and some lawn sprinklers

Most concrete and water line work is complete between Home Street and Main Street. Most of the remaining street work is near Main Street. Most of the remaining water line work is between the schools and Home Street and on Hammond Street. The Grove Street project is funded with state gas tax and city water and sewer funds and is expected to be complete before school starts in the middle of August.

Parking is restricted during the day Monday through Friday while work is underway and at other time when necessary. Equipment, workers, trenches, and obstacles in the street will require attention and could impact traffic. There will be ongoing driveway, alley, lane and street closures. All efforts will be made to minimize the impacts and restrictions, but residents, drivers, and pedestrians should be cautious, take alternate routes when available, be alert for hidden hazards, and be patient with some inconvenience and with short delays. Short duration sewer and water shutoffs will be required during construction and unexpected shutoffs are necessary when construction activities accidentally hit underground pipes. Residents will be advised in advance of these shutoffs whenever possible and their planning, cooperation, and patience will be greatly appreciated.

For more information contact City of Bishop Public Works. Press releases posted at <http://www.ca-bishop.us/Advertisements/Releases/Releases.htm>.
