Public Works News Release

Construction Update

Properties along May Street in Bishop should expect water to be shut off for a few hours Monday morning, 1 November due to water line construction. The shut off will affect properties between Main Street and Third Street on May. Also, construction is expected to begin next week on the new water line on North Third Street between East Pine Street and Willow Street. In a week or so, construction will begin on new water line on Willow Street.

The \$480,000 City of Bishop project will replace small and deteriorated water line with new larger pipe. The project will reduce leaks and improve fire protection. The improvements extend from North Main Street to Hanby Avenue on May Street, from Whitney Alley to North Third Street on Willow Street, and from Willow Street to East Pine Street on North Third Street. New hydrants at intersections and new services to each property along the portions of streets affected by the project are included. The project is funded from city water funds and the contractor is Marzano and Sons from June Lake.

Parking will be restricted during the day Monday through Thursday while work is underway and at other times when necessary. Construction materials, equipment, workers, and trenches in the street will require attention and will impact pedestrian and vehicle traffic. There will be ongoing lane and street closures and vehicle access to properties will be restricted at times. All efforts will be made to minimize the impacts and restrictions, but residents, drivers, and pedestrians should be cautious, take alternate routes when available, be alert for hidden hazards, and be patient with some inconvenience and with short delays.
