## **Public Works News Release**

### **No Pavement on Third Street**

The contractor on the City of Bishop "Project A" plans to remove pavement on North Third Street this week and repave the street early next week. Qualcon Contractors plans to grind out the pavement on North Third Street between Pine and Elm Streets and on Elm Street near Third this Thursday, 19 May. If all goes well with the grinding, paving is planned for Monday and Tuesday of next week. This schedule would leave the street unpaved over the coming weekend. Concrete work on the project is expected to be complete this week.

Work at the Short Street location of the project is done except for pavement markings, street signs, and trees.

Freshly placed concrete and pavement are soft and vulnerable to damage, especially damage from vehicles. To protect the concrete and pavement, street and driveway closures are necessary. All efforts are being made to minimize the impacts and closures. Residents, drivers, and pedestrians in the project area should be cautious, take alternate routes when available, be prepared to park and walk longer distances than normal, be alert for hidden hazards, and be patient with some inconvenience and with delays.

For more information contact City of Bishop Public Works. Press releases posted at <http://www.ca-bishop.us/Advertisements/Releases/Releases.html>.
