Public Works News Release

Wye Road Construction Planned for May

The City of Bishop plans to start construction of a storm drain along Wye Road in May. Currently the city is accepting bids from contractors for the installation of a storm drain under Wye Road between North Main Street (Highway 6) and Spruce Street. The project is called the Wye Road Storm Drain project.

Construction of the drain will restrict traffic on Wye Road to one lane when construction operations are underway. This lane restriction could impact shoppers going to or from the Kmart / Vons shopping center and other businesses in the area. Patience during the six week long construction will be appreciated.

Funding for the \$200,000 project has been provided by the Kmart / Vons development and by Caltrans. The storm drain improvements will be done in anticipation of an intersection widening project planned for the Main Street and Wye Road intersection in the next year or so. The intersection project will be funded from the same sources.
