## **Public Works News Release**

### **Wye Road Construction Postponed**

The City of Bishop has postponed construction of a storm drain along Wye Road that had been planned for May. Increased costs to relocate overhead power lines and other utilities along with other uncertainties prompted the city to reject all 7 construction bids it recently received for the project. It is hoped the storm drain and other improvements to Wye Road can be completed within the next year.

The Wye Road Storm Drain project will construct a storm drain under Wye Road between North Main Street (Highway 6) and Spruce Street. Funding for the \$200,000 project has been provided by the Kmart / Vons development and by Caltrans. The storm drain improvements will be done in conjunction of an intersection widening project planned for the Main Street and Wye Road intersection. The storm drain and intersection improvements will benefit traffic, streets, and properties in the Wye Road area.
