Public Works News Release

New Stop Signs on Warren Street

Drivers should be aware of new stop signs installed along North Warren Street.

In the next week or so, permanent stop signs will be installed on all legs of each intersection along North Warren Street between Line Street and Elm Street. This means that vehicles from all directions will need to stop at the intersections of North Warren Street and Church Street, Academy Avenue, Pine Street, and Grove Street. The intersection of Warren and Elm will not be changed so will not have all-way stops.

This change to all-way stops at these intersections is made in response to suggestions prior to construction of the Warren Street Improvements project and after consideration for traffic and pedestrian safety in the area.

All the other street signs in the area of construction will also be replaced as a part of the same effort. None of the other sign changes are as important as the stop sign change.

For more information contact City of Bishop Public Works at publicworks@ca-bishop.us or 760-873-8458.
