## **Public Works News Release**

### **Warren Street Construction Update 15**

There are 1 to 2 weeks of major construction activities left on the City of Bishop Warren Street Improvements project.

Most of the remaining work on the project will be on South Warren Street between Line and Lagoon streets. This work on South Warren will be construction of sidewalk on the east side of the street in this area. Sidewalk construction is expected to take about another week.

In addition to the last sidewalk work on the project, concrete placement is planned in the intersections at Warren and Church and at Warren and Academy. Concrete placement in intersections could take up to a week. Because of this, there is a possibility this work will be postponed until after Mule Days.

Slurry seal and restriping in city parking lots is planned starting Monday, 11 May, and is expected to take 1 or 2 days. Access to the parking lots will be restricted while this slurry seal and striping work is underway.

A brief ribbon cutting is planned for the project the week before Mule Days weekend. There will be more information about this ribbon cutting soon.

Equipment, workers, excavations in the street, uneven pavement, and other hidden hazards will continue to require attention, even when work is not underway. When signs say a road is closed, please don't drive on it. The contractor on the project normally works 7 am to 5 pm Monday through Thursday and has Fridays off. Work is expected tomorrow, Friday 8 May, however.

For more information contact City of Bishop Public Works at [publicworks@ca-bishop.us](mailto:publicworks@ca-bishop.us) or 760-873-8458.
