UNITY OF PURPOSE
GOALS:

OUR NORMS
1. Come prepared and with an inquiring mind. Read your agenda packet and be ready to ask clarifying questions.
2. Be present. Turn off your cell phone and do not engage sidebar conversations.
3. Listen carefully to another’s point of view, challenge his or her ideas but not the person.
4. All ships rise with the tide. Share your ideas in constructive and well-thought-out ways that would satisfy your local constituents, the larger area you represent and the region as a whole.
5. Support each other and treat each other with dignity and respect.
6. Ask questions when you do not understand something.
7. Respect your fellow council members’ time. Arrive and come back from breaks on time.
8. Keep a sense of humor and enjoy yourself.
9. If you commit to doing something — do it.

11. Allow each member of the governance team to complete their thought before injecting your own.

OUR GOVERNANCE NORMS
We agree to:
1. Focus on the needs of the region as a whole, on our specific areas and the populations and people we represent. The big and small pictures are not mutually exclusive.
2. Not take disagreements personally.
3. Show respect and never to dismiss or devalue others.
4. Make a commitment to effective deliberation, each one listening openly while while others are allowed to express their points of view.
5. Make a commitment to open communication, honesty and no surprises.
6. Commit the time necessary to govern effectively.
7. Be collaborative (this is the way we operate and get things done.) Help solve other peoples and communities problems and trust that yours will also be solved in the spirit of collaboration.

To: Inyo Mono Broadband Consortium Advisory Council  
From: Justin Norcross, Vice-Chair  
Subject: Inyo-Mono Broadband Consortium Provider Forum  

Recommendation  
1. Provide feedback regarding initial Provider Forum meeting  
2. Authorize Councilmember Justin Norcross and staff Nate Greenberg to schedule and coordinate the first Provider Forum meeting  

Discussion  
Since the June Advisory Council meeting, Justin Norcross and Nate Greenberg met twice to develop a draft agenda and begin to better define the purpose of Provider Forum.  

Several Providers are known to IMBC for potential inclusion in the Provider Forum. The list of providers includes national, regional, and local private companies. The variety of providers is not necessarily an indicator of success of mission. Through the discussion with Providers around goals below, the IMBC hopes to discuss ways to increase Access and improve Adoption throughout the Eastern Sierra.  

As part of the planning discussions for the first Provider Forum meeting, it was determined that having a set of clear and measurable goals would be important for providers (and others) to understand what the IMBC is working to accomplish. One recommendation is:  
"To establish high-quality, competitively priced, and long-term internet solutions for 100% of private lands in the Eastern Sierra"  

The vision for the first Forum meeting generally follows with these goals in mind:  
- Understand how ISPs can use Broadband Access Tool & Service Level Map to increase their coverage?  
  o Growth in currently covered areas  
  o Introduction of service into under/unserved areas  
- Understand ISP challenges to increasing Access  
  o The IMBC recognizes that provider participation is needed but without the forfeiture of trade secret information  
- Understand public policy barriers for ISP to expand service
Draft Agenda for 1st Meeting

- Share the Vision and Goals of IMBC
- Overview of the IMBC and work plan
- Broadband Access Tool & Map
- ISP Challenges, how to best share with IMBC?
- Public policy barriers
